WATER HEATER	INDIRECT WATER HEATERS	
GAS		
CONDENSING	MEGA-STOR II	BUFFER TANK
Stainless steel water tube hot water heater. Five sizes - 400 MBH to 1000 MBH input 10:1 Turndown	Stainless Steel - Indirect Water Heater Five sizes - 30, 40, 50, 75, 119	Stainless Steel - Indirect Water Heater Two sizes - 50 and 75

ADVANCED FEATURES

PHANTOM ADAPTIVE COMBUSTION

Adaptive combustion technology features

- Field convertible to LP
- Simple start-up
- Rate based temperature reset - no outdoor sensor required

Standard on Phantom II Combi and Heat Only boilers

PATCONNECT

PAT-Connect is a commissioning, diagnostic and service tool consisting of a Bluetooth Adapter and mobile device app. The app communicates with any Velocity Boiler Works condensing boiler. PAT-Connect is a local service tool with portal data collection and live streaming to enable remote support.
